### MILITIA REGIMENTS READY TO MOVE AT SHORT NOTICE.

Encouraging Reports from the Lumber Cutting Points.—Receiver Asked for a Railroad.—Banker's Trial in Progress at Madison.—Pensions for Old Soldiers.

Adj.-Gen. Boardman while in Milwaukee yesterday, said that no orders from the government had been received at Madison relative to ordering out the state militia. No communication had been received from the War department regarding the future movements of the militia and until such orders have been received it was impossible to say what disposition would be made of the state force if hostilities were declared. The requisition that will be made on Wisconsin, he said, would determine the number of troops needed and the formation in which they will go out. If ordered by regiments, each regiment would be assigned to some certain army corps and no one would be designated as Wisconsin brigade commander. If ordered out as one brigade the brigadier would be under the command of a brigadier general and that officer would be appointed by the governor. The state troops, Gen. Boardman said, were ready at any time, and especially at this time.

#### THE LUMBER INTEREST.

Mill Men Have an Abundance of Work Before Them.

Chippewa Falls, April 19.—Although there was a large cut of logs the past winter, and every saw mill owner has been anticipating a large production, there is still some uncertainty in regard to the logs coming as rapidly as desired on account of the low water in all of the log-driving streams throughout the northwest. April rains have not prevailed as usual, and in place of the usual high water and floods in the spring, the water has been lower than almost ever known, and necessarily causes some apprehension as to this log supply.

Green Bay, Wis., April 19.—The Nauvug line has secured a contract with the Payne Lumber company, of Oshkosh, to deliver lumber on barges from Menominee to Oshkosh. It was tried as an experiment last year, delivering lumber by water to Oshkosh, which has proved a success. They are now loading two barges at Menominee for Oshkosh. They expect to make a trip once a week through the summer.

Marinette, Wis., April 19.—Before the week's over every drive on the Menominee will be started. Five hundred men will be at work pushing the logs in their various streams on their long journey to Marinette and Menominee. The water is the lowest known in years and serious delay is anticipated before the logs reach the mills here.

It Is Still on in the Federal Court at Madison

Needs was a grain trimmer and for a time was supposed to have been smothered in a grain cargo. No fears of foul play are entertained, as his watch and money were on his person.

Ashland, Wis., April 19.—Suit has been begun by taxpayers of Bayfield county, against the Washburn, Bayfield & Iron River Railway company, the

Bayfield County Construction company, and others to restrain the delivery of stock and bonds on the ground that a conspiracy has been formed between the railway and construction companies to defraud the county and other stockholders by selling stock and bonds of the railway company to the construction company at less than one-fifth of their value, and for the purpose of evading payment of laborers and material used in construction. An injunction and a receiver are applied for.

P. A. Surgeon A. W. Dunbar, U. S. navy, son of Chaplain G. W. Dunbar, U. S. army, retired, of this city, was attached to the New Orleans on her voyage from England to New York, and will probably go with her or the San Francisco, to join the flying squadron at Hampton Roads.

### A SWORN Foe TO CYCLERS

Shepherd Dog's Career on Milwaukee Street Is Ended.

Chief Hogan and Officer Appleby made what they term an important arrest yesterday, in the capture of a shepherd dog which they managed to corral on the Milwaukee street bridge. For the past three weeks this same dog has from day to day stationed himself on Milwaukee street between River and Main streets, where he took a great delight in chasing passing vehicles and bicycles, each time making an extra effort to grab at the hind wheels. Several wheelmen say he has punctured their rubber tires with his sharp teeth. The canine is not vicious, but seems to do it merely for the fun of the thing.

## GOLF CLUB PLANS FOR COMING YEAR.

### NEW LINKS SECURED ON THE WOODRUFF FARM.

Sport Has Steadily Grown in Favor Ever Since Its Importation From Scotland—Members of the Sinissippi Club Preparing For an Active Campaign This Season.

Steps are being taken as fast as possible to put the Sinissippi Golf club on a permanent basis. Interest in the sport has grown remarkably during the last three years. The game was brought to Janesville by Alexander Galbraith, who returned from Scotland in 1895, bringing an equipment of clubs and balls. He interested a number of friends, and the game was played on the pastures of the Galbraith farm on Ruger avenue. Early in 1896 the Sinissippi Golf club was formed, taking its name from the old name for Rock river. Forty acres of land on the Woodruff farm were leased and links laid out.

## THE RESOLUTION AS FINALLY AGREED UPON.

The resolution as it was finally agreed upon by the Conference committees and adopted by the house and the senate, early this morning is the same as the senate passed it, except that the Turpie amendment recognizing the independence of the Cuban republic is stricken out. The words "are and" in the first section are restored, thus making it read that "the people of CUBA ARE AND of right ought to be free and independent."

The club gained in strength during 1896 and in 1897 began improvements of a more permanent nature, altering the grounds and putting up the locker house that has answered as a temporary club house.

#### Will Own Their Quarters

So remarkable was the growth of the club and so strong were the assurances of permanent favor that the members made up their minds early this season to buy the property if possible and put up more suitable quarters. At a special meeting of the club this course was authorized and a stock subscription arranged. A stock company is to be formed which will buy ninety acres of the Woodruff farm and erect a simple but reasonably spacious club house with floor room enough to permit of holding informal dancing parties during the summer. The stock company will then lease the property to the golf club at a price that represents 6 per cent investment.

#### Dues Remains the Same

It was at first intended to raise the membership dues in the club to \$10 a year to meet this expense, but the growth in membership and the outcome from other resources have given assurance that this will be unnecessary, and the dues will therefore remain at \$5 a year, the initiation fee being \$1 as determined at the March meeting.

There has been no effort as yet to secure stock subscriptions, but nearly half of the required amount has been subscribed voluntarily by those who are anxious to get the matter settled as soon as possible so that the work of erecting the club house can begin. There is little question that the stock will be placed easily, as the land furnishes ample security for the amount invested and will become more valuable with each year.

### WORKMEN WILL HAVE FUN

Large Class for Initiation—Entertainment and Dance

This evening's meeting of Olive Branch Lodge No. 36, A. O. U. W. at Liberty hall promises to be one of unusual interest. A class of twenty-five new members will be initiated into the mysteries of the order, and at the conclusion of the ceremony the families and friends of members will be invited to make themselves at home in the hall. A literary entertainment, which has been in the course of preparation for time past, will be given, and this will be followed by dancing. Refreshments will be served free to all who are present.

Those not members of the order, but who intend to be present at the entertainment and dance, will rendezvous at Dr. W. H. Judd's vacant store on North Main street.

COUNCIL GOES OUT OF BUSINESS.

LAST MEETING OF THE OLD BOARD OF ALDERMEN.

A General Clearing Up of the Rubbish of the Year.—Street Improvements and Repairs.—Mrs. Hefferson's Damage Claim.—Thoroughgood Says Farewell.

The old council met last night and proceeded to clear the decks of the rubbish that had accumulated during the past year and put matters in ship shape for their successors.

Reports Submitted

After Mayor Thoroughgood had demanded order with his usual savoir faire, the report of the city treasurer for March, the municipal court report for March, the bonds and oaths of office of the several officers-elect, the report of the board of education for December, 1897, and January, February and March, 1898, were all referred to their respective committees.

The report of the municipal court was brought back by the judiciary committee as correct and it was received and placed on file.

The judiciary committee reported the bonds of the several officers-elect in due form and sureties good and they were accepted and placed on file.

The reports of the board of education were pronounced correct and they were placed on file and ordered published.

Affecting the Streets.

Eugene F. Fish received permission to use certain streets while removing the old Northwestern depot from its present site to the vicinity of the pumping station, provided he hold the city harmless and free from costs for any damages that might occur. The building will be moved on Academy street to Pleasant; along Pleasant to Franklin; south on Franklin to Galena street.

W. H. Ashcraft received permission to build a summer kitchen adjoining his store on West Milwaukee street, while the request of Charles T. Wilcox to be allowed to repair his building damaged by fire on April 10, was denied, and Alderman McKee, from the fire and water committee, to whom the matter was referred, reported in favor of the mayor appointing a committee of arbitration to examine the building and report if in their judgment it could be repaired under the law. John T. Wilcox, J. G. Wray and William Barshell were appointed as such committee.

Mrs. Hefferson's Claim.

The usual batch of bills was ordered paid, when Alderman McLean, from the judiciary committee, reported in favor of a settlement in the personal injury case of Mrs. Margaret Hefferson. City Attorney McElroy said that Mrs. Hefferson fell on the icy sidewalk on Western avenue and fractured her ankle and was laid up for some time. The ordinary notice of damages had been given within the required time. There were these conditions to be met, the fall, the injury and the icy sidewalk. The case stood in such condition that it was dangerous to go into court with it. He had learned the amount of the doctor's bill and for nursing and attendance. For \$100 a claim of both Mrs. Hefferson and her husband would be settled. It would cost the city more than that to go into court.

On motion of Ald. McLean an order was authorized to be drawn for \$100 in favor of Mrs. Hefferson in settlement of all claims against the city.

General Business

Helen street, in D. P. Smith's park, was accepted as one of the city streets. The contract for the vacation of North street in favor of the Chicago & Northwestern railroad company was ordered to be signed.

The ordinance relating to street repairs was read a third time and passed.

Mayor Thoroughgood named Thomas S. Nolan as a police and fire commissioner to succeed himself, his term having nearly expired, and the appointment was confirmed.

Consideration of the ordinance relative to changes in ward boundaries was postponed till the next meeting of the council.

The Mayor Says Farewell

Mayor Thoroughgood then arose and said farewell to those of the council whose faces would be seen in the chamber no more. He said: "To the officers whose terms expire tonight allow me to say you leave the council with my kindest regard for your future. I can truthfully say our municipal relations have been pleasant. During the past year the council room has been free from unpleasant scenes, a statement it is pleasant for me to make. I have to thank you for your manliness on important questions, and allow me to say you leave the city council with the well wishes of the mayor, and undoubtedly your old colleagues, and with an honest conviction on our part that your labors have been for the best interests of the city."

Alderman Milmore, on behalf of the outgoing members of the council, returned their thanks to the mayor, expressing their esteem and high regard for the impartial manner in which he had conducted the duties of his office.

## WILL CALL FOR 70,000 MEN.

Military Bill Is Prepared in the House.

TO BE PASSED PROMPTLY.

Mr. Hull of Iowa Will Introduce the Measure—Spain Is Prepared for the Worst—United States Troops on the Way to Southern Points.

Washington, April 19.—Representative Hull of Iowa, chairman of the house committee on military affairs, will introduce an administration bill, authorizing the president to issue a call for volunteers to the number of 70,000 men. It will be considered immediately by the committee, its passage expedited as rapidly as possible, and will take effect immediately upon the president's approval.

Its terms will authorize the president to call on the various states for quotas in making up the aggregate. By reading in this way, instead of specifically calling out the state militia, it will avoid several embarrassing technicalities, a main one being the constitutional inhibition on sending state militia out of the country, while volunteers so-called may be ordered anywhere.

It is likely that if the situation develops into such grave proportions as is now expected a second call for 100,000 volunteers will be issued by the president. The necessity for this number, however, is not clear to the military authorities at this time. The draft of the present war measure has just been framed by the war department officials and the leading members of the military committee have already conferred with the war department. It is announced that a maximum of 80,000 volunteers would be sufficient at this time.

## INTERVENTION NOT SUGGESTED.

European Powers Contemplated Nothing More Than Mediation.

London, April 19.—The Vienna correspondent of the Times utters a warning against "exaggerated and misleading reports respecting the action of the Austrian government and emperor." He says:

"It is not true that any very prominent part has been taken by either the emperor or the government. Moreover, there has been, and can be, no question of intervention. It is mediation in its least obtrusive form which the powers have attempted, confining themselves to appealing to the principles of humanity and proffering their good offices in case the two conflicting parties should wish to take advantage of the offer. Between action of this description and actual intervention there is little in common.

"It is to be regretted that these well-meant efforts have been unsuccessful, but failure was to a large extent anticipated. It was foreseen that the Americans would resent mediation, and it was difficult even to see how President McKinley could have mentioned the subject in his message to congress without offending one or the other of the parties concerned. It must be remembered that the niceties of European diplomatic methods are lost upon so practical a people as the Americans."

## READY TO LEAVE SPAIN.

Minister Woodford and American Residents Have Made Preparations.

Washington, April 19.—It is said at the state department that Minister Woodford has completed arrangements to leave Madrid at a moment's notice. He has arranged to turn over the archives of the American legation and the interests of American subjects to the custody of the British diplomatic representatives at the capital.

All that is needed in the way of preparation is the securing of passports, and these may be handed to him as soon as Spain learns that congress has passed the resolution directing forcible intervention in Cuba.

It is not expected, however, that the Spanish government will take positive action in this matter until it receives the ultimatum from President McKinley. As this is expected to be sent today, Minister Woodford may be on his way home very shortly.

Arrangements have also been made within the last few days to get all Americans out of Spain. The consuls have been kept fully advised of the strained relations between the two countries and have been counselled to be ready to leave their posts whenever notified to do so.

All of these commercial representatives are now ready to leave at once and they may abandon Spain as soon as the ultimatum is delivered at Madrid.

## SPAIN SEES NO ESCAPE.

Has a Feeling That the Worst Is About to Happen.

Madrid, April 19.—All circles are pervaded by a feeling that the worst is about to happen. A solution of the political complications at Washington is awaited with tranquil firmness by the ministry.

The result of the visit to the insurgent camp of the commissioners of the insular government is awaited with anxiety. By most people, however, this commission is considered a forlorn hope, and the general public anticipates the worst.

It is asserted on good authority that the mission to the insurgent camp is limited to an offer to the insurgent chiefs to recognize their present grades in the future insular army, after the withdrawal of the Spanish forces from Cuba, "which will remain under the

protection of Spain, with a governor preferentially a civilian." It is said the parliament about to assemble will sanction this arrangement.

## IRELAND HOLDS OUT A HOPE.

Archbishop Cables the Pope That There Is a Chance for Peace.

London, April 19.—The Rome correspondent of the Daily Mail, telegraphing Monday, says:

"Archbishop Ireland cabled to the pope to-day, saying he had great hopes that his efforts for the preservation of peace would be crowned with success. The archbishop complains that the greatest obstacle in his path is the violent language used in Roman Catholic organs in Europe against America.

"I learn that the powers are now discussing the advisability of offering their pacific mediation in the controversy between Spain and the United States on the basis of Spain ultimately relinquishing her sovereignty over Cuba, but receiving due compensation.

## DINGLEY LAW AND ENGLAND.

The Dingley law is creating consternation among our English friends who were so delighted with the operations of the Wilson act. The report of the Bradford, England, chamber of commerce shows that the exports from Bradford to the United States in five months under the Dingley law amounted to only £156,278, as against £1,668,908 in the corresponding months of 1895. A writer in the Pall Mall Gazette, calling attention to this fact, and noting the ups and downs of English sales to the United States under various tariff laws says: "For the last five months of 1896 (under the tariff of 1883) the exports were worth £1,341,056; the McKinley tariff managed to get this figure down to £752,910 in 1891; under the general influence of the Wilson law the 1895 figures ran up to £1,668,908; under the Dingley law the five months' total reached only £156,278. Truly Bradford has cause for consternation."

Commenting still further upon this fact, the Gazette points out that Great Britain's free trade generosity to the world has not, apparently, been appreciated and says: "She has given her all to the world and the world has not shown a ha'porth of gratitude. Ten years was the time which Cobden allowed for effective gratitude to permeate through the heart of nations. More than five decades have passed, and the great heart of the 'greatest nation on earth'—the United States, whereunto Cobden and his disciples looked with the warmest sentiments of love and hope—has shown its gratitude to England (who is in addition, the best customer the United States has—worth as much as all the other customers together) by imposing against one of our staple trades a tariff duty which carries protectionism to the point of vindictive prohibition."

## FACTORIES ARE BUSY.

That the conditions of manufacturing industries has improved since the Dingley law is perhaps not doubted by anybody, but it is at least interesting to observe that the failures in manufacturing lines have fallen off very greatly since the adoption of that measure. The failures among manufacturers in the first week of March, 1897, amounted to \$1,088,758, while those of the first week of March 1898, under the Dingley law were only \$480,074. The total failures in the United States in the first week of March, 1898, amounted to \$1,770,592, against \$2,647,445 in the corresponding week of last year.

## PURE FARM PRODUCTS.

The Agricultural Department has just presented some statistics bearing on the improvement in prices of farm products during the last twelve months which are extremely gratifying to the farmers of the country. They show an improvement in all lines of farm production and estimate an increased valuation of farmers' products of \$500,000,000 over the preceding year. The increase in farm stock alone is stated at \$236,000,000. The statistics from which the total results are compiled show the improvement to be well distributed over the country, no state or territory failing to report decided increases in farm and stock values.

Dr. Von Welebach, the Austrian chemist who invented the incandescent gas burner now so much in use, has taken out patents on an electric lamp operated on a similar plan.

A German chemist named Laugmans has produced an artificial silk that is said to be non-inflammable. It has hitherto been necessary to use nitrated cellulose. This is avoided in the new process by using a solution of purified cellulose sulphophosphoric acid—which certainly ought to make the goods both fireproof and war-proof.

The Best Liniment—"Chamberlain's Pain Balm" is the finest on earth," write Edwards & Parker, of Plains, Va. This is the verdict of all who use it. For rheumatism, lame back, sprains, swellings and the numerous slight ailments and accidents common to every household, this liniment has no equal. With it in the house, a great deal of pain and suffering may be avoided. For sale by People's Drug Company, corner Main and Milwaukee street.

To Give Troop an Ovation. San Francisco, April 19.—The troops at the Presidio, ordered to New Orleans and Chattanooga, will probably leave San Francisco tomorrow evening, but it is possible that their departure may be delayed until Wednesday. Efforts are being made to have the troops parade through the city on their departure, so they may be given an ovation, in which it is proposed that all the public school children will participate. General Shafter would not say positively today that any part of the national guard would be ordered to duty at the Presidio.

Thirty-five years make a generation. That is how long Adolph Fisher, of Janesville, O., suffered from piles. He was cured by using three boxes of De Witt's Witch Hazel Salve. People's Drug Co., corner Main and Mil. Sts.

Junta Offers Bids. Washington, April 19.—The personal statement of a prominent newspaper publisher, owning two papers, that he had been offered \$2,000,000 Cuban bonds if he would support recognition of Cuban independence had great effect among members. It was coupled with the statement that the offer was made by a man showing authority of the Cuban junta. He told the members that the offer was accompanied with a guaranty that a bank would pay 40 cents on the dollar when independence was recognized.

Nothing New at Washington. Washington, April 19.—Nothing was done today in the way of formulating an ultimatum to Spain, nor was anything received from Minister Woodford or the other sources which may in any way change the situation. No one in official circles doubts that a hostile resolution will be passed by congress within the next day or two, and war almost certainly will follow.

## MARY TIPNEY TAKES DEADLY MORPHINE.

### SWALLOWS OVER FOUR GRAINS OF THE POISON.

Unfortunate Woman Was Used To Taking the Drug.—Was Unconscious Throughout the Night and Today.—Took Enough To Kill Four Ordinary Persons.

From the effects of an overdose of morphine, Miss Mary A. Tipney, of 105 Cornelia street, was hovering between life and death today. Up till a late hour this afternoon she was still unconscious, and her recovery is a matter of much doubt.

It was accidental. Indications point to the fact that the taking of the drug was accidental on her part, and that she was unconscious of her dangerous act at the time.

Some time during the night or the early part of the morning it is supposed she took the deadly poison, and that she soon became unconscious after retiring.

At an early hour this morning members of the family, on entering her room, discovered her in what they thought was deep slumber, and thinking sleep was what she needed they quietly left the room.

At 8 o'clock they again paid a visit to her room, and on trying to arouse her discovered that her face was badly discolored, and that she was unconscious.

Medical Aid Summoned

Dr. Q. O. Sutherland was immediately summoned, and it took him but a moment to discover that the unfortunate woman was suffering from an overdose of morphine. Nearby was a box partly filled with morphine tablets. An examination of its contents showed that out of fifty tablets, that were purchased yesterday, eighteen were missing, which was equal to four and a half grains of morphine which the unfortunate woman is supposed to have taken. One grain is enough to kill an ordinary person, and how Miss Tipney lived through the night in an unconscious condition is a mystery that is baffling the physicians.

Members of the family say that Miss Tipney has been acting strangely for some time past, and that she has been taking drugs to make her sleep. Yesterday morning she went down town to the drug store of Palmer & Sraay, where she informed Mr. Palmer that she was unable to sleep nights, and that she wanted some morphine pills or tablets that would ease her pain and aid her to gain sleep. Mr. Palmer closely questioned her, and advised her that she had better go to see a doctor and let him prescribe for her.

Used to the Drug.

Miss Tipney then stated that she had taken morphine, and that it was nothing new for her. She then purchased fifty tablets, and Mr. Palmer again advised her that one tablet at a time was sufficient for any person to take. After leaving the store she made straight for her Cornelia street home, and it is supposed commenced taking the tablets early in the evening, and continued to do so until she became unconscious.

The Family Reticent

Miss Tipney has resided in this city for a number of years and is the daughter of Mrs. Lucy Tipney, whose demise recently took place. At the Tipney home today members of the family did not care to discuss the matter any more than they were obliged to, and though the less said about the affair the better.

She May Recover

At a late hour this afternoon Miss Tipney recovered consciousness, but is still in a dangerous condition. Chances favor her recovery, however.

The Fond du Lac Commonwealth of yesterday says: "Rev. H. W. Thompson preached his first sermon as pastor of the People's Christian association, at its hall Sunday morning. He did not allude to the newly established relations between himself and the association during his discourse, but in making a few preliminary remarks he requested all the members of the association to meet him at the close of the evening service, at which time he announced that he would deliver something in the way of a salutatory address and have a quiet, confidential talk with his congregation."

The article which appeared in The Gazette of last evening to the effect that N. H. It now seems that Chalfant left several unpaid bills in this city, and if he is arrested by the Chicago police, a type-written letter will be mailed to the prosecuting attorney at Chicago by local residents whom Chalfant managed to beat out of several dollars. He left an unpaid board bill at the Highland House, as well as one at a private boarding house. While working at the F. M. AGREEMENT REACHED.

(Continued from page 7)

ferences had failed to reach an agreement. Mr. Davis stated the points of disagreement, that there had been no difficulty to agree to the house resolution as amended, but the point of contention arose over the insertion of the words "are and" in the first section, which says the people of Cuba "are and of right ought to be free and independent." He said the majority of the conferees had agreed to waive the Turpie amendment, providing that the words above mentioned be inserted. But the senate conferees were met with refusal to so agree, and he reluctantly reported the same to the senate.

An hour's debate ensued before another vote was taken. Then the first part of Mr. Davis' motion—that to insist upon the senate amendments—was carried without division. The second part—that requesting a further conference—was agreed to—39 to 40.

At 9:15 p. m., on motion of Mr. Allison (Iowa), a recess of one hour was taken.

After the recess Mr. Morgan presented a joint resolution declaring war against Spain, which was read and allowed to lay on the table.

At 10:25 Chief Clerk Browning of the house presented a message from that body asking for a further conference upon the Cuban question upon the disagreement of the two houses.

Mr. Davis moved to insist upon the senate amendment and grant a conference, but Mr. Allen asked for a division of the question. The motion to agree to a conference was adopted before the second portion of the motion. Mr. Allen addressed the senate. He said that the time had come when the senate should appoint the conferees and not the chair.

Mr. Allen's motion to have the senate name the conferees was lost, 28 to 49.

Mr. Davis' motion was carried and the president pro tempore (Senator Frye) appointed Senators Davis, Foraker and Morgan.

A recess was taken for half an hour. Following this there was further delay.

At 1:14 a. m. Senator Davis presented the conference report. This restored the words "are and" in the first paragraph and eliminated the Turpie amendment recognizing the insurgent government.

A vote was at once taken, and the conference report was adopted 42 to 25, as stated.

Then the senate at 1:50 a. m. adjourned.

The resolution in full is as follows: "Joint resolution for the recognition of the independence of the people of Cuba, demanding that the government of Spain relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters, and directing the president of the United States to use the land and naval forces of the United States to carry these resolutions into effect.

"Whereas, The abhorrent conditions, which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship, with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the president of the United States in his message to congress of April 11, 1898, upon which the action of congress was invited; therefore,

"Resolved, first, That the people of the island of Cuba are, and of right ought to be, free and independent.

"Second, That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters.

"Third, That the president of the United States be, and he hereby is, directed and empowered to use the entire land and naval forces of the United States, and to call into actual service of the United States the militia of the several states, to such extent as may be necessary to carry these resolutions into effect.

"Fourth, That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and asserts its determination, when that is accomplished, to leave the government and control of the island to its people."

"I feel it my duty to give you a truthful statement of what Chamberlain's Colic, Cholera and Diarrhoea Remedy did," writes J. S. Collins, of Moore, S. C. "I had a child about two years old, that had the diarrhoea for two months. I tried all the best known remedies, but none gave the least relief. When this remedy came to hand, I gave it as directed, and in two days the child was completely cured." Sold by People's Drug Co., corner Main and E. Milwaukee Sts.

A TRAVELING MAN Gives Some Valuable Hints Regarding the Care of the Health While Traveling.

Mr. R. W. Winchendon, a commercial traveller from Birmingham, whose business keeps him almost constantly on the road, relates in the Sunday News the dangers to health resulting from constant change of residence and the way he overcame the usual injurious effects.

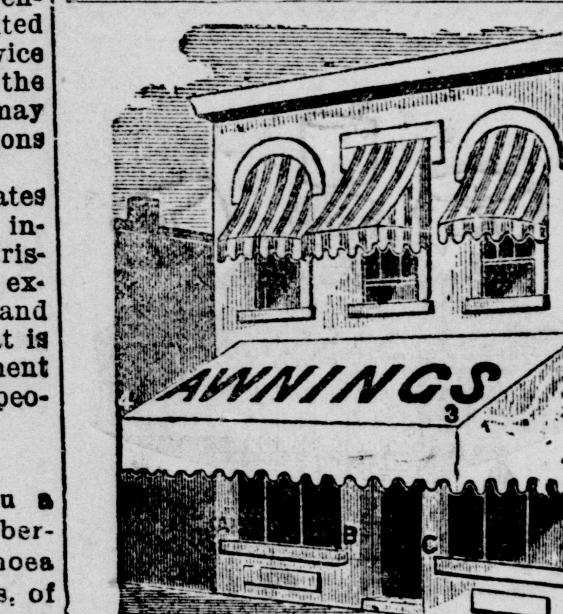

He says: One thing people traveling cannot very well avoid is the constant change in water and food; the stomach never has an opportunity to become accustomed to anything, and in a few years or much sooner the average traveling man becomes a hopeless dyspeptic.

For several years I suffered more or less from indigestion, sour stomach, headache, distaste for food, often no appetite, gas on the stomach and the usual unpleasant effects of imperfect digestion.

Nearly every traveling man has his favorite remedy for different troubles and I tried all of them with different results. Finally on the train between Pittsburgh and Philadelphia one day, I overheard a conversation between two ladies, one who had suffered severely from indigestion and stated she had been completely cured by a remedy which she called Stuart's Dyspepsia Tablets; I remembered the conversation because it directly interested me; and at the next town I inquired at the first drug store and bought a package for fifty cents and from that day to this I have never been without them. They are pleasant tasting tablets, not a secret patent medicine but composed of vegetable essences, pure pepsin, fruit salts and Golden Seal; being in tablet form they never lose their good qualities like a liquid medicine would, but are always fresh and ready for use.

I carry a box in my pocket continually, and whenever I see any symptoms of indigestion I take one after each meal, and for a year and a half I have not lost a day by reason of poor health and can eat anything and relish what I eat; my digestion is absolutely perfect as far as I can judge from my feelings and although there may be other stomach medicines just as good as Stuart's Dyspepsia Tablets, I do not know what they are. Certainly for people who travel they are far ahead of any liquid medicine, as they are so convenient, they can be carried in the pocket and used whenever needed.

I believe they are sold by all druggists at 50 cents, and believe anyone who will try them will agree with me, that for indigestion and stomach trouble Stuart's Dyspepsia Tablets are unequalled.
